

WILL RECRUIT BOYS FOR WORK ON FARM

County Mass Meeting Will Be Held at Y. M. C. A. Forum at 7:30 Tonight.

MEMBERSHIP IS VOLUNTARY

No One Will Force Boys to Join. Unless They Desire to Do They Are Not Obligated to Enroll.

Actual recruiting for the United States Boys Working reserve will start tonight with a county mass meeting, which is to be held in the boys department of the Y. M. C. A. at 7:30. Some of the best informed speakers in the county upon this subject will be present and discuss the various phases of the work with the boys. Every boy between the ages of 16 and 20 years is invited to be present. Recruiting offices are to be opened in every high school and in every public library in the state and recruiting officers will be selected to take charge of this work in each community. The federal government has placed Tulsa's quota of boys at 500, and places are being provided for this number on the best improved farms in the country. Each boy enrolling will receive a real treat from the Y. M. C. A. of the local directors.

The United States Boys Working reserve was organized in May, 1917, as one of the necessary factors in solving the food problem. Since the creation of this organization the government has taken charge of this work and organized branches in every state. The purpose of the organization in brief is to mobilize for productive service, on farms and in essential industrial plants, all American boys within the age limit to ensure that their education is maintained and to develop the boys physically.

Membership in this organization is entirely voluntary. No one is going to force a boy to enroll. However, all Tulsa boys are urged by the local directors to enroll in the Tulsa county reserve and receive the great benefits derived from such work. O. S. Burkholder, city director, said: "Last year several hundred boys enrolled from the city and this year we are counting on at least doubling the number. We offer places on the best farms in the state and furthermore we assure each boy the highest remuneration paid anywhere for such work."

MEN WILLING TO TAKE ODD JOBS FOR PRESENT

Employment Agencies Want List of Small Undertakings to Tide Applicants Over

"Clean Up" is the slogan of the employment offices of the city, in finding employment of any nature for the numerous applicants who are received daily. They are asking for the undivided co-operation of all the business men in this movement in securing jobs, even though they are for only a few days. The offices are planning to keep in close touch with all new openings, regardless of the kind of work.

Carl Lee, superintendent of the local federal employment office, stated yesterday that one of the most pressing problems presented for speedy solution was the one of finding odd jobs, where men could find work that would enable them to self-sustaining until they could be located permanently. In the majority of cases where business concerns have jobs, which would require only a few hours work, the information is never given to the employment authorities. This is of vital importance, said Mr. Lee, as this would tide over a hungry soldier or sailor until some opening could be found.

The directors of the Y. M. C. A. employment bureau, in a statement issued yesterday, stated that the condition existing in the placing of men because their information is incomplete concerning temporary positions. N. A. Thompson, head of the department, said that the bureau was now men to have their odd jobs in general cleaned up, while this great surplus of excellent material is here and by so doing render assistance to some worthy, needy applicants. Mr. Thompson suggests that where concerns have even temporary jobs, it would be greatly appreciated if this information would be given this department.

DISPENSARY OPENS IN NEW HOME YESTERDAY

In a thoroughly cleaned and well furnished little cottage the tuberculosis dispensary opened at the usual hours yesterday at 15 West Eleventh street, the new home, where it was moved from the old building Saturday. In addition to the offices of Miss Beattie Richardson and Mrs. H. M. Hurley, nurse and educational secretary, respectively, which will be maintained here, there will also be the examining room. Those who wish to be examined by the physician are asked to call on Mondays, Wednesdays and Fridays between the hours of 12 and 1:30.

Although the work of the two women takes them away from the dispensary a greater part of the time, one of the other is always on duty for the accommodation of visitors. Through the courtesy of a number of individuals and firms in the city who assisted in furnishing the new home of the dispensary, such accommodations are now available as to greatly facilitate the work of the tuberculosis association.

CITY ENGINEER PLANNING TO PAVE ALL SIDEWALKS

Plans are contemplated by city Engineer Wynn to have all walks with the city streets paved next fall. City engineers are to begin work this week to determine the amount and location of all unpaved walks in Tulsa and as soon as this is accomplished paving will begin immediately. Last year the construction work on paving was begun too late, which consequently resulted in no work being done until next fall. If this work, as contemplated, is carried out, Tulsa will have the sole honor of being the only city in Oklahoma with unpaved pavements and which alone will be an added item to the beauty of the city.

Woman Gets State Job

Miss Frances Perkins

Miss Frances Perkins, who is the first woman appointed to a state job by Governor Booth of New York, will have the highest salary but ever held by a woman under the state government. As state industrial commissioner Miss Perkins, who in private life is Mrs. Paul Wilson, wife of a former secretary to the late Mayor Mitchell of New York City, will receive \$8,000 a year.

Miss Perkins has had an unusual career since she started in the freshman class at Mount Holyoke college. She has been a revolutionist, first in school affairs and then after her graduation in political affairs. Always she has taken the side of the under dog. In college she got rules passed which would help the poor down-trodden freshmen and in her business life she became a lobbyist for the common good. During her career she brought about the making of laws regarding cleanliness in New York bakeries, she was instrumental in having working hours shortened and factories properly protected from risks of fire, and she has effected these reforms by the hardest kind of work. When the legislature was in session Miss Perkins almost lived on the Pullman running between New York and Albany in order to get interviews with the politicians on their way to the capital.

NEW TRAIN SCHEDULE HAS BENEFICIAL FEATURES

The new train service that has been added on the Frisco schedule takes the place of train number 418. This train stops at all stations between Tulsa and Oklahoma City, leaving Oklahoma City at 4:25 a. m., instead of 7:30 a. m., the time which train number 418 left Oklahoma City, and arriving in Tulsa at 9:30 a. m., laying over in Tulsa until 12:40 p. m., making connection with trains to Enid and Claremore.

This schedule will be of benefit to Tulsa from a business point of view as it will enable business men to attend to their business matters. The new schedule has already proven satisfactory. On Monday afternoon all berths were sold and Tuesday morning applications could not be filled, while on Sunday there were 10 applicants for berths that could not be filled, which resulted in an extra coach being added to the train.

TURN HAIR DARK WITH SAGE TEA

If Mixed With Sulphur It Darkens so Naturally Nobody Can Tell.

The old-time mixture of Sage Tea and Sulphur for darkening hair, streaked and faded hair is grandmother's recipe, and folks are again using it to keep their hair a good, even color, which is quite sensible, as we are living in an age when a youthful appearance is of the greatest advantage.

Nobody, though, we don't have the troublesome task of gathering the sage and the money mixing at home. All drug stores sell the ready-made product, improved by the addition of other ingredients called "Wyneth's Sage and Sulphur Compound." It is very popular because nobody can discover it has been applied. Simply moisten your comb or a soft brush with it and drag this through your hair, taking one small strand at a time; by morning the gray hair disappears, but what delights the ladies with Wyneth's Sage and Sulphur Compound is that, besides beautifully darkening the hair after a few applications, it also produces that soft lustre and appearance of abundance which is so attractive. Adv.

AN ATTACK OF INFLUENZA OFTEN LEAVES KIDNEYS IN WEAKENED CONDITION

Doctors in all parts of the country have been kept busy with the epidemic of influenza, which has visited so many homes.

The symptoms of this disease are very distressing and leave the system in a run down condition. At most every victim complains of lame back and aching troubles, which should not be neglected, as these danger signals often lead to dangerous kidney troubles. Druggists report a large sale on Dr. Kilmer's Swamp-Root, which is a native remedy, say soon helps and strengthens the kidneys after an attack of grip. Swamp-Root, being an herbal compound, has a gentle healing effect on the kidneys, which is immediately noticed in most cases by those who try it. Dr. Kilmer & Co., Binghamton, N. Y., offer to send a simple size bottle of Swamp-Root, on receipt of ten cents, to every sufferer who requests it. A trial will convince any one who may be in need of it. Regular medium and large size bottles for sale at all druggists. Be sure to mention this paper, Tulsa Daily World, Adv.

HYGIENE CLASS GIVEN RED CROSS DIPLOMAS

Exercises Conducted Last Night at Home Nursing Department Conducted by Mrs. Coleman.

Proceeding by a program rendered by the various graduated classes, a class in elementary hygiene under the instruction of Mrs. Elizabeth Coleman of the home nursing department of the local Red Cross received diplomas and were pronounced graduates of the 15 weeks course last night. In the absence of Mr. Kemp, Mr. Dickinson, publicity manager of the local Red Cross, presented the diplomas. Miss J. M. Miller, southern field secretary of the Tulsa department of the Red Cross, delivered a short talk. Miss L. Miller, who has been in Tulsa for a short time, has had extensive experience in Red Cross work.

One of the features of the evening program was a demonstration of the work taught in the course by Mrs. Coleman. A patient was carried into an assumed Red Cross dressing room on a stretcher, and the class went through the routine work to relieve the supposed sufferer. On all former occasions a member of the local home guard has been used as a subject for first aid administration since the war is over. Mrs. Coleman has reverted to the use of civilians. It is the policy of the local nursing department of the Red Cross to give a demonstration of this work once every three months.

In the harness of Red Cross time out graduates it has been the policy of Mrs. Coleman to turn the entertainment branch of the graduation exercises over to a graduated class. In this manner each class takes charge of the entertainment program for a new class. The program for the class that graduated Monday night was arranged by Kendall class number 30.

Mrs. Coleman is greatly disappointed in the amount of interest shown here in her work. She claims that at such demonstrations in New York city one was fortunate to obtain standing room but that in Tulsa there are sufficient spectators to accept those directly interested in a participant.

Among those to receive diplomas at the graduation exercises Monday night were: Misses Nina Corine Jones, Grace Woodward, Hazel Woodward, Elizabeth Sayre, Marie Laffoon, Fannie Hooper, Julianne Laffoon, Mrs. Chard, Mrs. Maude French, Mrs. Amanda Roberts, Mrs. Emma Jay, Mrs. Frank Curry, Mrs. Nellie Hibbs, and Mrs. Inez Porter. Other members of the class who were absent were mailed their diplomas.

Costa Rican Invasion Feared

MANAGUA, Nicaragua, Jan. 27. Travelers from Costa Rica report that the Tinoco government has a large number of men under arms and strict censorship is enforced. The travelers say President Tinoco evidently fears an invasion of Costa Rica by Costa Ricans called when he gained control.

Unemployed Soldiers and Sailors Must Be Provided With Meals

Tulsa must make some provision to feed soldiers and sailors who have come to the city in the hope of finding immediate employment, but have been disappointed. Realizing the predicament of many of these men who arrive with little or no money, the Y. M. C. A. and the Knights of Columbus have provided places for the men to sleep, but they cannot provide adequate meals. In view of the fact that these soldiers have come to Tulsa because the city has been widely advertised by soldiers from here as the best city in the southwest and perhaps in the United States, it is up to us to provide for them until they can either find employment or leave the city. Soldiers who have toured the city and high have done so without thought that anything but the best of service could obtain from it, and in doing so have done what every resident of the city has been doing for years.

A movement has been started to provide funds to take care of the men temporarily and it is quite necessary that there be immediate and adequate response.

POLIN DISCOVERS THIEVES ALSO ADMIRE CORD TIRES

A. J. Polin, of the Polin Tire Service and certain alleged thieves who for the present will remain unnamed are both of the same opinion regarding the value of a good Cord tire. While Mr. Polin was in Los Angeles watching the victory automobile race Saturday the thieves concerned in this story broke into his place of business on South Main street and stole \$1,000 worth of Royal Cord tires. Yesterday a telegram was received from Mr. Polin in which he stated that the \$1,000 victory sweepstakes race was won by Sales in 59 minutes and 23 seconds and that he used 18 Royal Cord tires without a change.

Whether the thieves anticipated the advertising which these goods were to receive and stocked up on that account or not, they have at least acquired a good stock.

Look out for Spanish Influenza. At the first sign of a cold take

CASCARA QUININE

Standard cold remedy for 30 years in tablet form. Cures, soothes, breaks up a cold in 14 hours—relieves grip in 3 days. Money back if it fails. The genuine has a red bull with Mr. Koko picture. At All Drug Stores.

TULSANS COMPLAIN OF FOREIGN MAIL

Leo Meyer Has Definite Claim to Complaint Since Son Died on Battlefield in France

Because of the apparent irregularities and lack of efficiency in the handling of the details pertaining to the affairs of the men of the American expeditionary forces abroad, the officials to whom this city is checked up, a number of Tulsa citizens are pouring complaint against the various government officials at Washington in an endeavor to get out of several yards of red tape and get in touch with relatives overseas. The general trend of the bitterness expressed is that mail is poorly handled and news from home seldom if ever reaches the person for whom it was intended.

Among the citizens who have good reason to complain is Leo Meyer, formerly state auditor now in the employ of the Corden company, whose son was killed in France last fall. At the time of his death young Meyer owned \$200 on his person and ever since that time the father has tried to obtain this money to no avail. The death of young Meyer occurred last October and up to that time, according to Mr. Meyer, his son had not received any pay for seven months.

Another well known Tulsa who prefers to withhold his name, has a brother in France who has not been paid for six months. He is also claimed by the brother that he has received no mail from his Tulsa relatives. A young married woman living here has written to her husband in France many times but according to the letters she regularly receives from him, not one of hers was ever delivered. The young wife was becoming despondent over these conditions and intended sending a cable to her husband Monday night.

HOPE TO KEEP SAILORS IN THE SERVICE OF U. S.

FARIS, Jan. 27.—American naval authorities here are doing everything possible to avoid adding to the number of unemployed in the United States by retaining in the service every able bodied sailor who can be induced to remain. Instructions have been given to discharge no man who does not desire to leave and who has no prospect of employment. Apprehension is expressed in

FEDERAL OFFICERS PULL SEVERAL RAIDS SATURDAY

Saturday was a busy day for the United States marshal's office. Late in the afternoon Chief Deputy Marshal J. J. Moran and J. H. Lumphin, revenue collector, made a raid on Jimmy Johns' place north of the city and captured 14 cases of whisky, bringing the total for the day up to 30 cases of whisky. In a raid in the forenoon by Deputy United States Marshal W. N. Ellis and Revenue Officer Brooks, 16 cases of liquor were taken from the place of Sandy McMillin, six miles north of the city and Harry Cagle and Leo Sturtz were arrested. C. L. Brown was arrested early Saturday morning by J. J. Moran in connection with the seizure of two trunks containing two kegs of whisky and four gallon cans of alcohol taken off the Frisco train from Kansas City. They are being held for arraignment before J. H. Wilkins, United States commissioner, upon his return to the city today after having spent a couple of days out of the city.

Sampson's Chief of Staff Dies

NEW YORK, Jan. 27. Rear Admiral French Edwin Chadwick, U. S. N., retired, who was chief of staff for Admiral Sampson during the Spanish American war, died today at his home here. He had been ailing for many months but a week ago was removed here from his summer home at Newport, R. I. Pneumonia set in before his death. Mrs. Chadwick was at his bedside at the time.

Recruiting offices are to be opened in every high school and in every public library in the state and recruiting officers will be selected to take charge of this work in each community. The federal government has placed Tulsa's quota of boys at 500, and places are being provided for this number on the best improved farms in the country. Each boy enrolling will receive a real treat from the Y. M. C. A. of the local directors.
